HAVILAND DURACHLOR ACTIVATOR POOL PERFORMANCE AMPLIFIER

Haviland Durachlor Activator, our original and proven formula, makes caring for swimming pool water refreshingly simple. Activator does so much, with such little effort, and typically needs to be added only once a pool season! Truly, with a single application, *Haviland Durachlor Activator does it all!*

- Once a season algaecide to prevent algae growth
- Reduces chlorine normally required
- Use will help maintain ideal pH levels during the entire season. Perfect for pools that use chlorine generators.
- Inhibits scale
- Reduces eye and skin irritation
- Gives water soft, silky feel
- Beautiful looking water – improves clarity
- Reduces filter maintenance
- Compatible with all sanitizers
- Unaffected by UV or sunlight

**BORATES
MAKE IT
BETTER**

STEP 1 DURACHLOR ACTIVATOR (Apply Once)
EASY TO USE! Add two pounds for every 1,000 gallons of pool water directly to the pool. Afterwards, adjust the pH by adding $\frac{3}{4}$ pound pH Down for each pound of Durachlor Activator.

STEP 2 DURACHLOR TABLETS (Apply As Needed)
To keep water clean and clear, use Haviland Durachlor Tablets. Our high compression chlorinating tablets continuously release your daily sanitizer with no gummy binders or excessive odor.

STEP 3 DURACHLOR SHOCKS (Apply Weekly)
The right shock for you pool can be based on your unique water conditions. Your local pool professional can suggest the best for you.

STEP 4 DURACHLOR BLUE 2000 (Apply Weekly)
Maintaining water sparkle is easy with Blue 2000. Our unique formula, added in small doses, envelopes tiny particles in the pool water allowing the filter to more easily remove them from the pool water.
