

DURACHLOR POOL CARE PROGRAM

Follow these steps and you will be on your way to perfect pool water.

STEP
1

OPTIMIZE ONCE

Easier pool care starts here! A single dose of **Activator Plus** optimizes your pool water for the entirety of a season.

STEP
2

SANITIZE DAILY

Durachlor Tablets keeps water free from germs, bacteria, and viruses so everyone has a safe time using the pool! Create an enjoyable experience by routinely adding these pivotal products to ensure water looks good, feels good, and has no odor.

STEP
3

SHOCK WEEKLY

Body oils, sweat, cosmetics, and other wastes enter the water from use. Mother nature's also introduces rain, pollen, dust, and other contaminants. Shocking routinely with **Multi Shock Extra** reduces and removes these water "extras", while revitalizing Step 2, helping to keep water clear.

STEP
4

CLEAN WEEKLY

Some particles are so small that they pass right through the filter. **Blue 2000** binds those particles into larger ones, resulting in the clearest possible water.
